Hi-Level Water Sensor

Part No: FP2098

ASPEN-5/09

Dimensions:

Height: 70mm
Width: 125mm
Depth: 90mm

Electrical Specification:

- Volts: 230V Hertz: 50-60 Hz

Other Features:

- Can be used in conjunction with most pumps that do not include high level safety
- Two sensor operating systems available: condensate sensor or float sensor
- 2 levels of sensing - high & low, both with N.O, N.C & C

**For utmost security!
The versatile Hi-Level
Water Sensor is
available with two
different sensor
options:**

- **Condensate sensor, as used by the Aspen MK4 peristaltic pump.**
- **Float sensor, as used by the Aspen Mechanical peristaltic pump and Mini Orange pump.**

The Hi-Level Water Sensor can be used in conjunction with most pumps that do not include high level safety. It also has 2 levels of sensing - high and low, both with N.O, N.C & C.
