**mk4**

**CONDENSATE REMOVAL PUMP**

The MK4 peristaltic is operated using two water sensors. The lower sensor comes into contact with water, the heat conductivity from that sensor provides a temperature difference between the second – energising the pump.

**KEY FEATURES**

- Water sensor operated
- Remote install possible
- Pumps contaminated water
- Can run dry

**SUITABILITY**

- Up to 8.5kW / 29,000 Btu/h
- High Wall Split Systems; Ducted units; Floor standing & Chassis units

---
