

OSPRZĘT

PL

acid neutraliser

GŁÓWNE ZALETY

- For treating harmful condensates created in condensing boilers
- For domestic boilers up to 45kW
- Fits in line with the 22mm ø condensate outlet pipe from domestic boilers
- Environmentally friendly; no chemicals
- Active contents work for 1 year* (reminder sticker for boiler included)
- Contains naturally occurring calcium carbonate (limestone)
- Compression fittings provide watertight seal and allow for easy replacement

Nr części

FP1021 (box of 1)

SPECIFICATIONS

Max water flow	1Ltr/minute
Max pressure	2 bar (70psi)
Diameter	41.5 mm ø maks
Długość	260 mm
Contents weight	150 g
Total weight	250 g
Maks. temp.	80°C

* Typical lifetime based on domestic boilers up to 45kW. Lifetime depends on boiler efficiency (volume of condensate and PH level).
