

Aspen Pumps Ltd. Modern Day Slavery Act (2015) 2020 Statement

Introduction

This statement is made by Aspen Pumps Ltd. in compliance to section 54 of the Modern Slavery Act 2015 (MSA) and applies to all parent companies and subsidiaries (as defined in the Aspen Pumps Ltd. Structure).

This statement will be reviewed and updated annually to reflect the Group status and is available on our website or by request.

Modern slavery is a crime and a violation of fundamental human rights. It can take various forms, such as slavery, servitude, forced and compulsory labour and human trafficking. The Group is committed to identify risks of modern slavery and human trafficking throughout its supply chain and continually works with its suppliers to ensure transparency in the supply chain.

Our Pledge

Aspen Pumps Ltd. is committed to comply fully with applicable human rights legislation in the countries we operate. For all matters relating to human rights, we will comply with local laws and if those laws provide lesser protection than UK law, we will apply the principles enshrined in UK law.

As part of our ongoing due diligence process which has taken place during the previous financial year, supplier approval is carried out throughout the Group. The following controls have been put in place to mitigate potential risk from within the Group and from those organisations, we interact with:

- We continue to include modern slavery discussions within all our supplier visits
- We continue to work closely with our supply chains to ensure compliance with legislative obligations and expect those organisations to have suitable anti-slavery and human trafficking policies and processes.
- We continue to request that our suppliers complete 'Supplier Modern Slavery Self-Assessment Declaration'
- We will carry out independent modern slavery audits (especially in countries where the risk of modern slavery is much higher).

- **Whistleblowing Policy**
Aspen Pumps Ltd. operates a whistleblowing policy. The aim of this policy is to provide an internal mechanism for reporting, investigating and remedying any wrongdoing in our supply chain. We aim to encourage every employee to speak up about genuine concerns in relation to criminal activity.

Aspen Pumps Ltd. therefore has in place procedures and systems to prevent and detect corruption and bribery.
- **Equal Opportunities Policy**
Aspen Pumps Ltd. are aware of issues relating to discrimination, harassment and victimisation and have taken the necessary measures to make sure it does not happen within the organisation. Aspen Pumps Ltd. employees are paid at least the living wage, which shows a commitment to avoiding labour exploitation within our businesses.

Managing Risk

Aspen Pumps Ltd. does not wish to be associated with any organisation that either has or is found to be involved with human trafficking or modern slavery. If we were to find evidence that one of our suppliers has failed to comply with Modern Slavery Act 2015 then we would require the relevant supplier to remedy such non-compliance and would consider terminating our relationship should we see no substantial improvement in the way their business is conducted.

We currently conduct limited audits on our suppliers from a modern day slavery perspective. However as part of Aspen Pumps Ltd. efforts to monitor and reduce the risk of modern day slavery and human trafficking occurring through the supply chains, we regularly send out 'Modern Slavery Self-Assessment Declaration' to our suppliers to reinforce and strengthen our commitment to eliminating modern slavery.

Supplier Adherence to our Values

In order to ensure that all persons within our supply chain comply with our values and zero tolerance policy on modern slavery, we have implemented a 'Modern Slavery Self-Assessment Declaration' to assess and monitor our suppliers conduct.

Aspen Pumps Ltd. Objective is to continue sending out Modern Day Slavery supplier audits throughout the Group supply chain. We therefore expect our suppliers to comply with those provisions laid out in the act and hold their own suppliers to the same high standards.
