

# AdvancedGel DU

## Condensate Drain Unblocker

### SPECIAL FEATURES

**The heavy-duty formula will clear organic and inorganic blockages**

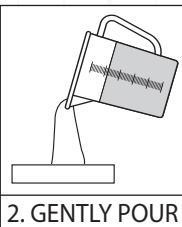

**Heavier than water, it will sink and find the blockage**

**Safe to use with condensate pumps**

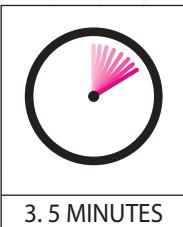

### DIRECTIONS OF USE

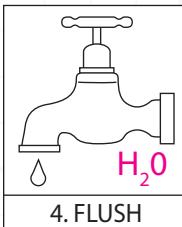

1. DRAIN WATER

2. GENTLY POUR

3. 5 MINUTES

4. FLUSH

Dilute the Condensate Drain Unblocker, using 1 part product to 8 parts water, in a suitable plastic container. Once the water is added, the product will be ready to use in 5 minutes.

Remove the excess water from the condensate tray and drain, if possible. Gently pour the diluted Condensate Drain Unblocker Gel, into the tray, and allow it to enter the drain. Allow the diluted Condensate Drain Unblocker Gel to remain in the condensate tray and drain for five minutes or until the obstruction is cleared. After five minutes, flush out with fresh water for 2-3 minutes. Repeat as necessary until the obstruction is cleared.

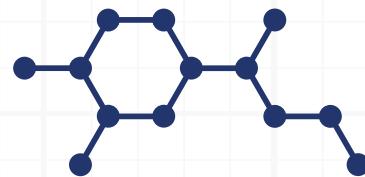

Diluted Advanced Condensate Drain Unblocker Gel is safe to use where a condensate pump is fitted.

If you are planning on cleaning the evaporator unit, at the same time as unblocking the condensate drain, due to compatibility, please ensure that you use only the Advanced Evaporator Cleaner & Disinfectant Gel or the Advanced Universal Cleaner Gel.

### Disposal

Product: Incineration on land

Container: Clean with water. Dispose of as normal industrial waste. Do not reuse empty container.

## Technical Data Sheet

Condensate run-off from the coil will drain away slowly. If the coil is very dirty, some of this dirt will be carried into the condensate tray. Sludge and slime building up in the standing water in the tray will eventually run into the drain – causing blockages. Overflow from the tray may damage decoration and furnishings. AdvancedGel DU is designed for systems where a condensate pump is fitted.

### PRODUCT SPECIFICATION

Name	AdvancedGel DU
Product Code	S010461GB
Packing Quantity	5 x 490ml
Packing Size (L x H x D cm)	22cm x 25cm x 12cm
Shipping Weight (kg)	3.45kg
Shipping Volume (m <sup>3</sup> )	0.01m <sup>3</sup>
Soils	Organic obstruction, rust deposits, limescale

### AdvancedGel DU Condensate Drain Unblocker Gel Danger

**Contains  
HYDROCHLORIC ACID**

H314: Causes severe skin burns and eye damage. H335: May cause respiratory irritation. P260: Do not breathe spray. P280: Wear protective clothing, eye protection, face protection. P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**SUITABLE FOR ALL TYPES  
OF EVAPORATOR CONDENSATE TRAYS**

MAKES  
**8**  
LITRES
