

Technical Data Sheet

Advanced IMC

Ice Machine Cleaner

AdvancedGel IMC will effectively remove limescale and slime – which are common problems in ice machines – and will clean all surfaces. Limescale is formed by the insoluble calcium carbonate coating the ice-making elements. Newly formed ice sticks to the scale and this jams the machine. Slime then builds up, allowing contamination of the ice products. Slime can also give the ice a bad taste or odour.

PRODUCT SPECIFICATION

Name	AdvancedGel IMC
Product Code	S010460GB
Packing Quantity	5 x 490ml
Packing Size (L x H x D cm)	22cm x 25cm x 12cm
Shipping Weight (kg)	3.38kg
Shipping Volume (m ³)	0.01m ³
Soils	Scale, bacteria, mould, fungus

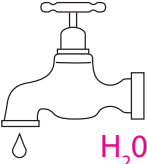

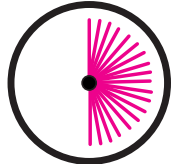

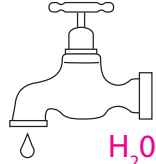

SPECIAL FEATURES

Clears heavy limescale and slime deposits

Nickel and aluminium safe - suitable for all ice machines

Colour indicator ensures product is completely flushed

DIRECTIONS OF USE

 1. DRAIN & REFILL	 2. DOSE	 3. 30 MINUTES	 4. FLUSH
---	--	--	---

Turn off the refrigeration and leave the pump in operation if possible. Drain the machine and refill with fresh water. The Ice Machine Cleaner Gel is designed to work on standard size ice machines and small variations, on the internal volumes, have been allowed for.

Add the Ice Machine Cleaner Gel directly to the water and allow the solution to circulate for about 30 minutes.

For scaled surfaces which are not in contact with the circulating solution, brush the diluted Advanced Ice Machine Cleaner Gel directly onto them.

Extra-heavy scale may require a second dose.

After the cleaning and scale removal is complete, drain the cleaning solution and flush thoroughly with fresh water until the runoff becomes clear.

Store upright in a cool, dry place.

Disposal

Product: Incineration on land

Container: Clean with water. Dispose of as normal industrial waste. Do not reuse empty container.

AdvancedGel IMC Ice Machine Cleaner Gel

Danger UN3264

**Contains
ORTHOPHOSPHORIC ACID**

H314: Causes severe skin burns and eye damage. P260: Do not breathe vapours. P280: Wear protective clothing, eye protection, face protection. P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

SUITABLE FOR ALL TYPES
OF ICE MACHINE UNITS

TDS Subject to change, document valid for 12 months from the following date, Last correct on: 10/02/20 - REV1.0

This product should only be used by trained operatives. The "directions for use" are recommendations only; correct use will depend upon circumstances. To the extent permitted, no liability can be accepted for loss resulting from its use. Advanced Engineering follows a policy of continual product improvement. For this reason, some materials and specifications can change without notice. Consult Safety Data Sheet for full safety information. Always wear suitable PPE.
