pump safe

KEY FEATURES

- Nature-based and 100% biodegradable.
- Made from organic salts derived from natural materials
- Dissolves and removes dirt to extensively improve thermal properties of Heat Pumps
- Easy to use with excellent performance
- Ready-to-use: supplied as a fully activated, concentrated liquid system, no pH adjustment or high shear mixing required.
- In little as 10 minutes, it brightens metal surfaces and makes Heat Exchange Systems aesthetically pleasing to the eye.
