ENHANCED GRIP
IMPROVED WIND RESISTANCE

H Tech Set 330mm

Fabricated on site - and accepting a range of strut, box section or threaded bar - the H Tech 330mm set is the most flexible choice on the market.

KEY FEATURES

- 50% Higher Coefficient of Friction; better surface to surface grip than rubber feet.
- Maximum stability; EPDM mat conforms better to uneven surfaces than rubber.
- Optimum weight distribution over whole foot print.
- Fits 21 × 41mm, 40 × 38mm, 41 × 41mm strut* and 40 × 40mm box section steel.
- Pre-threaded hole suitable for M12 bar.
- Strut fittings & bolts included.
- 100% recycled glass filled nylon foot construction.
- Optional angled mat accessory for use on uneven ground.

KIT INCLUDES

Foot with adhered mat	x 2
Bracket & fixings	x 4
Assembly instructions	x 1
